

What Are A Levels?

Cambridge International AS & A Levels are a university-entry qualification recognised in over 130 countries. Where the Abitur builds broad general knowledge, A Levels let students specialise in 3–4 subjects — a focused, university-style approach taught entirely in English.

Subjects Offered

- Mathematics
- Chemistry
- Biology
- Physics
- Art & Design
- Sociology
- German
- English Literature
- Economics
- Psychology
- Computer Science
- History

Value-Added Programmes

Universities look beyond exam results for evidence of character — leadership, resilience, service and initiative. Every College student builds that record through three levels of achievement, gaining real experiences to draw on in applications, personal statements and interviews.
